Profile

Specializing in casting in silicone for 5+ years. As a lab tech to being a supervisor I strive for a professional and respectful work environment. I am efficient with my time and managing daily tasks and workload. Learning and growing my education in this artistry is key in my career. I am a Los Angeles local and grew to love film and seek a career in this field. I take on the responsibility and the privilege it is to work in makeup effects, it's a passion and it is put into my work ethic.

Experience

SILICONE CASTER, AUTONOMOUS FX - AUGUST 2022-FEBRUARY 2023

Casting silicone, prosaide transfers, running flat molds, 2 part molds, taking orders from supervisor and meeting deadlines, working as a team player and maintaining a clean work environment.

SHOP SUPERVISOR AND PROSTHETICS COORDINATOR , OUT OF KIT – 2017- AUGUST 2022

Running silicone. Making flat molds, assisting in the molding process. Life-casting, making plasters. As a supervisor I would communicate with Makeup Artists; determining which prosthetics fit their needs, breakdown on custom work, custom skin tone matching, working with productions, setting up accounts, scheduling pick ups. Working with Retailers; fulfilling timely retail orders as well as handling production orders. Manage all inventory for fx lab. Managing team; hiring, schedules, turn arounds. Handling inventory; ordering materials, ensuring the shop always is in stock. Maintaining a clean work shop and environment. Manage social events such as classes and conventions; Crafty Meeting, Union Classes at Friends, and Monsterpalooza.

MAKEUP ARTIST – 2013-PRESENT

Skilled in applying prosthetics, Special Effects, Natural Makeup, Beauty, Male Grooming, and Hair styling. Worked on Short films, Full length features, Television, Commercials, Music Videos, and conventions.

LAB TECH, MAKEUP DESIGNORY – 2013-2014

Running their lab for appliances used for classes. Running Foam, Silicone, Pros-aide transfers, and Gelatin. Learned and gained my stepping stones for managing myself and the materials used in a Fx lab.
